

Policy of Use for CMC Logos

The CMC has developed logos to help convey to the public the relationship that a member has with CMC. In the case of Regulated Mediators, Registered Mediation Providers and organisations which provide Registered Training Courses, the logo demonstrates that agreed standards have been met.

CMC logos may only be used in accordance with this policy.

1. CMC logos can only be used by a person/organisation which currently holds the status that the logo denotes.
2. Where a logo relates to an individual, the logo must be displayed in way that makes clear that the logo and status relates to that individual and not others in a firm/organisation who do not hold that status.
3. It is the responsibility of CMC members to ensure that their employer or others they have contracts with use CMC logos correctly.
4. As permission to use the CMC logos is attached to CMC status or membership, the logos may not be used if this status is lost for any reason or membership ceases.
5. The CMC reserves the right to publicly identify any person/organisation using the CMC logos when they are not authorised to do so, on its website or elsewhere as appropriate.
6. CMC logos may only be reproduced from artwork issued by the CMC and may not be recreated or altered in anyway, other than re-sizing whilst maintaining original proportions.
